About Us

Arcom Global Limited, registered under no: 62924B, commenced its online investment operations in 2019 in the Bahamas, focusing on real estate, stock, NFT trades, agriculture, and gold mining. Our suite of services is meticulously crafted to aid investors in making sound investment choices across various sectors.

Our expert trading team comprises highly skilled analysts and analytical professionals who leverage their expertise and cutting-edge software to accurately forecast

market movements in currency exchange, cryptocurrency, real estate, stock, NFT trades, agriculture, and gold mining. They are well-versed in cryptocurrency techniques and equipped to address any inquiries regarding investment strategies. Our credibility is evidenced by our growing roster of long-term clients.

As a diversified investment platform, we thrive on the principle of mitigating risk through a multifaceted approach. The fluctuation of specific digital assets does not unduly impact our earnings, as we generate profits from a diverse range of investments across real estate, stock, NFT trades, agriculture, and gold mining, fostering productivity and stability. Furthermore, we employ a robust risk control system to safeguard your funds, ensuring peace of mind throughout your investment journey.

About Working With Gold

Gold in the 21st century is not money and not a means of payment. This is a highly liquid, ancient and most reliable means of accumulation. Investing in gold is the most popular way to diversify an investment portfolio, regardless of its size.

There are many reasons for this: gold has historically become a measure of securing money, metal storage does not require special conditions, it is not subject to damage over time, it is not afraid of fire, nor water, nor an open flame.

Legal gold mining consists of several stages of preliminary preparation for the exploration and enrichment of deposits. To increase the efficiency and speed of excavation, special machines and tools are used. The extracted material is processed according to gravity schemes, as well as using flotation and combined processing of mineral raw materials..

What We Do

Our company is engaged in investing in gold coins, metal bills.

Such a method of investing is devoid of the risk of capital loss, since gold will never depreciate completely, as is the case, for example, with stocks. In addition, the best industry analysts predict a steady increase in the price of gold in 2020–2021. There is a positive growth trend in the value of this precious metal: in early 2016, an ounce cost a little more than \$ 1050, in July 2018 - \$ 1220, and in October 2019 it is estimated at \$ 1,500. Thus, in just over 3 years, your investment in a noble metal would bring you almost 50% of the income.

However, Arcom Global Limited is not limited to buying / selling “gold assets” (including gold trading in the Forex market) and is directly involved in the process of their extraction from gold ores in Russia, Uzbekistan, Indonesia and China. An appropriate license and all necessary permits have been obtained.

CEO, Arcom Global Limited

For Years, We've Helped Clients Reach Their Financial Goals By Providing A Tailored Approach To Investment Management And Financial Planning.

Arcom global limited is a vertically integrated Trading and investment firm which combines a significant stock trading, Gold mining, Real estate, Nft Trades and Cryptocurrency which makes it a diversified investment where the whole world can earn real good without stress. The executive team at Arcom Global limited combines more than 13 years of experience in the Trading sector; including ownership and/or management of over 100,000 units. With over \$150 million in assets under management, the focus at Arcom global limited is to implement both tactical and strategic models to acquire financial freedom both in Real estate, Stock, Gold and Nft Sale and Trades, etc. in growth markets worldwide . At Arcom, we aren't content merely to see opportunities others don't. Or to simply seize opportunities others can't. We believe in "creating" value...and we have done just that over 750 times since 2011. This platform also uses a comprehensive risk control system to protect your funds.

MINERS/GOLD PRODUCERS

Arcom Global Limited can provide Miners and gold producers a full range of services at the mining sites, logistical services for export, along with import and customs clearance within Bahamas. Once in Bahamas, Gem Associate can help to have the products assayed, refined or sold onto waiting customers.

Arcom Global Limited can also offer direct financing with cash injections to help expand and grow the operational side of existing mining sites. It has the ability to enter into Joint Venture agreements with miners and gold producers to purchase mined gold. Arcom Global Limited will then be responsible for export. In addition it can provide miners a full turn key product to help with import and customs clearance in Bahamas

Arcom Global Limited has large financial investors, and with the teams banking background, these can be harnessed to issue a range of financial instruments to provide miners the safety of guaranteed payments on a CIF basis in Bahamas

TRADERS

Arcom Global Limited is the perfect partner for gold traders that do not have the experience or correct licensing setup within the Bahams for import and customs clearance.

Icon can provide a full service to traders to starting from the paperwork required to export and import, secure transport of goods, assaying, refining and end user product sales. Traders can use the extensive knowledge of Icon Gold to help with logistical requirements for both export and import procedures.

Through careful analysis, strategic planning, and diligent execution, we aim to maximize returns while managing risks effectively.

Stock

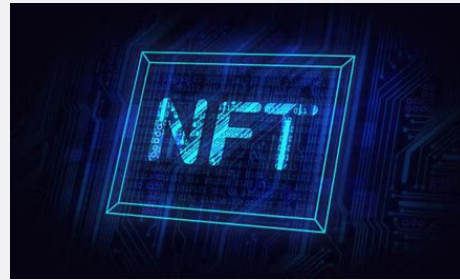

Our company facilitates stock investments, enabling you to secure your preferred percentage upon concluding the transaction. A stock, also known as equity, signifies ownership in a company or corporation, entitling you to a proportional claim on its assets and earnings.

Real Estate

Real estate investments encompass various activities such as acquiring, owning, managing, renting, and selling real estate assets with the aim of generating profit. Enhancing the value of real property as a component of an investment strategy is commonly regarded as a specialized aspect within the realm of real estate investing.

NFT sales and trades

NFTs, or non-fungible tokens, represent a unique form of digital asset that serves as a secure and immutable record of ownership on a blockchain. These tokens are distinct from cryptocurrencies like Bitcoin or Ethereum in that each NFT possesses its own distinct value and cannot be exchanged on a one- to-one basis. Rather, they are often associated with digital artworks, collectibles, virtual real estate, and other digital or tangible assets.

Agriculture

At our company, we recognize the profound importance of agriculture as a cornerstone of global sustenance and economic stability. With a deep commitment to fostering sustainable growth and innovation in this vital sector, we have strategically invested in agriculture projects that harness cutting-edge technologies and practices.

Gold

Gold, often referred to as the "king of metals," holds a timeless allure and significance that transcends civilizations and epochs. Renowned
